## EDUCATION

### Sandıklı Mektebim Science High School

Science

Access Grade: 94 / 100

Sandıklı, Afyonkarahisar

Graduated: Jun 2022

### Burdur Mehmet Akif Ersoy University

English Preparatory Class

Grade: 74 / 100

Burdur, Turkey

Sep 2022 – Jun 2023

### Burdur Mehmet Akif Ersoy University

B.Sc. in Computer Engineering

GPA: 3.09 / 4.00

Burdur, Turkey

Sep 2023 – Jun 2027 (Expected)

**Relevant Coursework:** Data Structures, Algorithms, Operating Systems, Database Management Systems, Object-Oriented Programming, Computer Networks.

## TECHNICAL SKILLS

- **Programming Languages:** Python, C++, JavaScript, TypeScript, Bash Shell Scripting, SQL.
- **Core Concepts:** Data Structures & Algorithms, Object-Oriented Programming (OOP), System Design, RESTful APIs.
- **Tools & Technologies:** Docker, Git/GitHub, Linux (Ubuntu/Debian), VS Code.
- **Frameworks & Libraries:** ROS (Robot Operating System), Node.js, Vue.js, NumPy, Pandas.
- **Databases:** PostgreSQL, MySQL, MongoDB.

## PROJECTS

### TEKNOFEST – Autonomous Underwater Vehicle (AUV) | Software & Simulation

Python, ROS 2,

Gazebo, Pixhawk

- Conducted R&D studies on the design and simulation of an autonomous underwater vehicle within the scope of TEKNOFEST.
- Performed modeling of vehicle dynamics and control algorithms in **ROS 2** and **Gazebo** environments.
- Worked on **Sensor Fusion** architecture including IMU, pressure, and sonar sensor data for state estimation.
- Tested basic motion and depth control scenarios in simulation using **Python**-based modules.

### Digital Dental World Platform (Active Development Phase) | Full Stack Developer

Vue.js, Laravel,

MySQL

- Developing a modern and scalable platform bringing dentists, laboratories, and sector companies together in a single ecosystem.
- Designing an end-to-end web application focusing on user experience, interactive interfaces, and sector-specific needs.
- Using **Vue.js** on the frontend, **Laravel** on the backend, and **MySQL** as the database.

### Automated LaTeX CV Template | Design & Automation

LaTeX, Docker, CI/CD

- Designed and developed a customizable **LaTeX** template for a professional and modern look.
- Integrated **Docker** containerization to ensure build environment independence and consistency.
- Improved maintainability and updateability by organizing source code in a modular structure (sections).

## FOREIGN LANGUAGES

English: Elementary Proficiency (A2)

Turkish: Native
